

Just A Closer Walk With Thee

For Mixed Chorus (SATB) with Piano and Optional Instrumental Accompaniment*

Performance Notes:

All dotted rhythmic figures should be performed in the popular idiom as illustrated.

() The triplet signs have been left out for clarity and ease of learning. The piano part should be kept relaxed in an improvised gospel feeling. The vocal parts are not difficult, though extra practice will be needed for measures 1-15 to maintain good intonation until the accompaniment enters.
